-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 October 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-12 is/are pending in the application.

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-4 drawn to Group I in the reply filed on 10/11/07 is acknowledged. Non-elected claims 5-12 have been withdrawn from further consideration on the merits.

Drawings

2. Figures 7 and 8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. 35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms." The specification appears to be a literal translation from the foreign

Art Unit: 2835

document and is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. Examples of some unclear, inexact or verbose terms used in the specification are: "connection box provided with such the fuse cavity structure" (p. 1, lines 7-8); "a fuse cavity structure which can be perform in a size reduction" (p. 1, lines 9-10); "heat generated into the electric connection box" (p. 3, lines 20-21); "without making the size of the electric connection box large and changing material", etc. Applicant must carefully review all specification in order to correct the aforementioned and other similar not mentioned problems.

Claim Objections

4. Claims 1-4 are objected to because of the following informalities: claims appear to be a literal translation from the foreign document and replete with cumbersome clauses that are not clear or exact. For example, claim 1 in the last two lines recites: "to communicate with adjacent fuse accommodating portions from each other". Claim 2 recites: "said notch is positioned to the corresponding position of at least a part of said fusible element". Claim 3 in line 4 recites: "from protecting circuit from" and in lines 5 and 6 the claim recites: "said housing a notch portion". Applicant must carefully review all pending claims in order to correct the aforementioned and other similar not mentioned problems.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 3 recite the limitations: "fuse accommodating portions" which lack antecedent basis.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-4, as best understood, are rejected under 35 U.S.C. 102(b) as being **clearly** anticipated by US/4,661,807 to Panaro.

Regarding claims 1 and 3, Panaro disclosed (Fig. 1, 10, 11) a electric connection box comprising: a fuse cavity structure including: a fuse (12) having a fusible element (inherently), provided between terminals (16, 18), for protecting a circuit from overcurrent; and a housing (142) accommodating said fuse (12), said housing (142) having a notch portion defined by

Art Unit: 2835

cutting a part of a wall of said housing (142) to communicate with adjacent fuse accommodating portions (notches formed in the divider walls not numbered, but clearly seen on Fig. 10).

Regarding claims 2 and 4, Panaro disclosed that said notch is positioned to the corresponding position of at least a part of said fusible element (Fig. 10).

Conclusion

9. The remaining prior art made of record on PTO-892 and not relied upon is considered pertinent to Applicant's disclosure, because of the teachings of various fuse boxes.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Thursday, between 10:00 am and 8:30 pm..
